

AV-LINE Projector AC Trigger

מפעיל אלחוטי, אוטומטי למסך חשמלי
עם הפעלת מקרן

RF Technic

Projector AC trigger is a kind of intelligent radio transmitter, work with projector and projection screen. When projector power on, projector AC trigger detects AC power input, and will send message to projection screen, then projection screen will run down automatically; When projector closed, projector AC trigger detects no power, and will send message to project screen let projection screen draw back automatically, realize unmanned operation.

- Standard power input socket connector, easy mounting;
- With hanger, easy fix;
- Full-automation intelligent operation mode, more advanced;
- Adjustable detection of power input, applicable for different power projector;
- Beautiful shape with design patent;
- World famous brand components, SMT automatically assembly craft.

Parameters

Voltage	Temperature	Transmit Power	Frequency	Trigger Current	Operation
230VAC 50Hz	0°C~+70°C	≤ 10mW	433.92MHz	0.1A~1A	Trigger Transmit
